Memo to: Dan Schorr and Tom Wicker

From : Harold Weisberg

Re : Your reported plugging of Jean Davison's Oswald's Games

Because it has been reported that each of you plugs this book, I include herewith copies of what I have prepared for use on a panel show on which I understand she is going to appear.

I think it will become obvious to you that what she writes is at the very least angled and on the most basic points not really honest.

To prepare for this possible confrontation I have xeroxes of everything I refer to and if either of you doubts the fidelity of my representation and quotation I will be happy to send you copies of these xeroxes.

If either of you has Norman Mailer's address, I would appreciate having it so that I may send him copies of what I am sending you. Or if eit her of you would send copies to him, I would appreciate that.

Harold
